

New Utah Limestone

Ivory White Limestone

Winter Ridge Blend

Trusted, Established, Refined

**New Utah White Limestone available now through
Mountain Valley Stone and Delta Stone**

In keeping with our commitment to provide the highest quality domestic stone, we are excited to offer Utah limestone. This lovely stone has tawny shades of alabaster, ivory, pearl, and is often accented by stripes of sun-burned sienna. Used on historic buildings throughout the country, this stone brings a regal elegance to any masonry project.

Quarried in Utah at the Gunnison Valley Mine, operated by Mountain Valley Stone, this beautiful stone is available in custom sized blocks and portions which will bring a historical and distinctive addition to your architecture.
